

Missouri Statewide Safety Belt Survey

Seat Belt Usage by Survey Site

***2016 Survey Data
Maps & Site Locations***

This book contains the survey site results of the 2016 Statewide Safety Belt Survey conducted June 6 – 20, 2016.

Twenty roadway segments were surveyed in accordance with National Highway Traffic Safety Administration (NHTSA) guidelines in 28 Missouri counties, totaling 560 observed sites. The observations were conducted on all days of the week during daylight hours between 7:00 AM and 6:00 PM, with each observation period lasting exactly 45 minutes. Passenger cars, van/minivans, sport utility/crossover vehicles, pickup trucks and commercial vehicles weighing less than 10,000 pounds are all qualifying vehicles for the survey and are subject to observation, regardless of the licensed state.

The 28 counties were selected from a pool of 64 counties that represented 85% of crash fatalities in the State of Missouri from 2008-2010. Per NHTSA guidelines, Missouri will be reselecting counties/observation sites based on new crash data for the 2018 survey year.

The counties surveyed were:

Andrew	Henry	Nodaway
Audrain	Jackson	Pemiscot
Boone	Jasper	Phelps
Buchanan	Jefferson	Saline
Callaway	Johnson	St. Charles
Cape Girardeau	Lafayette	St. Francois
Cole	Lawrence	St. Louis City/County
Franklin	Lincoln	Stoddard
Greene	Marion	
Grundy	Montgomery	

Based upon a total of 123,678 vehicle occupants observed, the 2016 statewide seat belt use rate on Missouri roadways was found to be 81.4 %, which is a 1.5% increase over the 2015 survey result.

The following pages include maps and spreadsheets of each county indicating the location of the observations, the number of observations by site, and the observed safety belt use by site. *Note – the “County Use Rate (Un-Weighted)” is appropriate for determining the use by county; the “County Use Rate (Weighted)” is only used in determining the overall statewide usage rate.*

This information should be very beneficial to target efforts to increase safety belt usage in these areas, whether through education or enforcement.

If you have any questions, please contact the MoDOT Traffic & Highway Safety Division at 1-800-800-BELT (2358).
